

PROGRAM OUTCOME

(2016-17)

Kulti College offers three year undergraduate **Honours degree programmes in Commerce, Bengali, English, Geography, Hindi, History, Political Science, Sanskrit, Microbiology, Zoology, Mathematics, Physics and BBA**. The College also offers **B.A. (Prog), B.Com. (Prog) and B.Sc. (Prog)**. The learning outcomes of graduate programmes manifest disciplinary knowledge and appreciation, generic skills, along with global competencies that all students in divergent academic fields of study need to acquire and demonstrate. Some of the programme outcomes in general are as follows:

DISCIPLINARY KNOWLEDGE: Students need to develop proficiency of validating comprehensive knowledge and understanding of one or more disciplines that form a part of an undergraduate programme of study.

- **Communication Skills:** Ingenuity to express efficiently thoughts and ideas verbally and in writing; share and express views with conviction; exhibit the ability to listen, speak, read and write analytically and expound complex information in a clear and concise manner to different groups.
- **Analytical Reasoning:** Ability to analyse and synthesize data from varied sources and evaluate their reliability and relevance; skill of addressing opposing viewpoints; draw accurate conclusions and support them with evidence and examples,
- **Critical Thinking and Solving Problem:** Efficiency to apply analytic thought to a body of knowledge; interpret and evaluate evidence, arguments, claims, beliefs on the basis of empirical evidence; evaluate practices, policies and theories acutely by following scientific approach to knowledge development; instead of replicating curriculum content knowledge, development of skill to deduce from what one has learnt and apply one's learning to solve real life situations and different kinds of non-familiar problems.
- **Scientific Reasoning and Reflective Thinking:** Ability to investigate, define and draw conclusions from quantitative/qualitative data; develop an open-minded and reasoned perspective for critical evaluation of ideas, evidence and

experiences; critical sensibility to lived experiences, with self-awareness and reflexivity of both self and society.

- **Research-related Skills:** A perception of inquiry and capability for asking relevant/appropriate questions, problem solving, synthesizing and articulation; Ability to recognise cause-and-effect relationships, define problems, formulate and test hypotheses, analyse, interpret and draw conclusions from data; ability to plan, execute and report the results of an experiment or investigation.
- **Information / Digital Literacy:** Potential to use ICT in a variety of learning situations; exhibit ability to use appropriate software for data analysis and access, evaluate and use a variety of relevant information sources.
- **Moral and Ethical Awareness:** Ability to embrace moral/ethical values in conducting one's life; use of objective, unbiased and truthful actions in all aspects of work by avoiding unethical behaviour such as fabrication, falsification or misrepresentation of data or committing plagiarism, not adhering to intellectual property rights; fostering appreciation of environmental and sustainability issues.
- **Self-directed Learning:** Ability to work independently, identify appropriate resources required for a project, and manage a project through to completion.
- **Cooperation/Team work:** Facilitate cooperative or coordinated effort to work effectively and respectfully with diverse teams in the interests of a common cause.
- **Leadership Qualities:** Capability of building a team who can help achieve a vision; motivating and inspiring team members to engage with that vision and using management skills to guide people to the right destination in a smooth and efficient manner.
- **Multicultural Competence:** Respect and know the values and beliefs of multiple cultures from both national and global perspectives; ability to effectively engage in a multicultural society and interact respectfully with diverse groups.
- **Lifelong Learning:** Nourishing self-paced and self-directed learning to acquire knowledge and skills throughout life with the aim of not just personal development but meeting economic, social and cultural objectives and adapting to changing trades.
